Digital Manufacturing Master Degree to set specialists for the
dawn of Industry 4.0

DIGIMAN 
master programme for digital manufacturing

Project number:
2019-1-RO01-KA203-063486

**Multiplier
Event E9**

1. Executive Summary

The E9 multiplier event of the DIGIMAN project was organized by Augmented Training Services (ATS). The event was held at the premises of ATS on the 9th of June 2022 in Huelva. We had 20 participants at this event. This event, divided into two sessions, firstly addressed the quality of the results and products. On the other hand, in the second part of the meeting, a general overview of the whole project was given, with emphasis on the results obtained after the whole process and development of the project. During the workshop, the results of the project were presented to industry stakeholders, teachers and students from other institutions. The main objectives and goals of the project were presented during the presentation, with special attention to the learning management system and the results of the learning materials.

2. Multiplier Events | Main Purposes

DIGIMAN aims to elaborate a master programme study related to digital manufacturing to meet the needs and challenges of Industry 4.0 and improve the companies' performance. During this event, stakeholders from the industry and academy were informed about the project's goals and results.

3. Topics to be covered in the multiplier event E9

In the E6 multiplier events the following topics were addressed:

- Results of the questionnaire about the needs of stakeholders for the education of digital manufacturing
- Presenting the digital educational tools and augmented reality systems
- Results of the developed curriculum
- Results of the learning and teaching materials in the e-learning system
